FCC INFORMATION (U.S.A.)

1. **IMPORTANT NOTICE: DO NOT MODIFY THIS UNIT!**
   This product, when installed as indicated in the instructions contained in this manual, meets FCC requirements. Modifications not expressly approved by Yamaha may void your authority, granted by the FCC, to use the product.
2. **IMPORTANT:** When connecting this product to accessories and/or another product use only high quality shielded cables. Cable/s supplied with this product MUST be used. Follow all installation instructions. Failure to follow instructions could void your FCC authorization to use this product in the USA.
3. **NOTE:** This product has been tested and found to comply with the requirements listed in FCC Regulations, Part 15 for Class "B" digital devices. Compliance with these requirements provides a reasonable level of assurance that your use of this product in a residential environment will not result in harmful interference with other electronic devices. This equipment generates/uses radio frequencies and, if not installed and used according to the instructions found in the users manual, may cause interference harmful to the operation of other electronic devices. Compliance with FCC regulations does not guarantee that interference will not occur in all installations. If this product is found to be the source of interference, which can be determined by turning the unit "OFF" and "ON", please try to eliminate the problem by using one of the following measures:
   - Relocate either this product or the device that is being affected by the interference.
   - Utilize power outlets that are on different branch (circuit breaker or fuse) circuits or install AC line filter/s.
   - In the case of radio or TV interference, relocate/reorient the antenna. If the antenna lead-in is 300 ohm ribbon lead, change the lead-in to co-axial type cable.

   If these corrective measures do not produce satisfactory results, please contact the local retailer authorized to distribute this type of product. If you cannot locate the appropriate retailer, please contact Yamaha Corporation of America, 6600 Orangethorpe Ave., Buena Park, CA90620, USA.
   The above statements apply ONLY to those products distributed by Yamaha Corporation of America or its subsidiaries.

COMPLIANCE INFORMATION STATEMENT
(Supplier's declaration of conformity procedure)

Responsible Party:	Yamaha Corporation of America
Address:	6600 Orangethorpe Ave. Buena Park Calif. 90620
Telephone:	714-522-9011
Type of Equipment:	RECHARGEABLE Li-ION BATTERY PACK
Model Name:	BTR-STP200

This device complies with Part 15 of the FCC Rules.
Operation is subject to two following conditions:
1) this device may not cause harmful interference, and
2) this device must accept any interference received including interference that may cause undesired operation.

(529-M02 FCC sdoc YCA 01)

Introduction

Thank you for purchasing the Yamaha BTR-STP200. This product is a rechargeable lithium ion battery pack.

This Owner's Manual describes precautions for using and recharging the battery pack.

Please be sure to read this Owner's Manual before using the product to take best advantage of the product's features.

After reading this manual, please keep it in a safe place.

PRECAUTIONS

PLEASE READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a safe place for future reference.

Please read the Owner's Manual carefully and use the product correctly.
If you use the product incorrectly, bodily injuries or burns, leaking liquid, overheating, explosion or damage to the product may result.

⚠ *WARNING*

Always follow the basic precautions listed below to avoid the possibility of serious injury or even death from electrical shock, short-circuiting, damages, fire or other hazards. These precautions include, but are not limited to, the following:

Do not open

- This product contains no user-serviceable parts. Do not attempt to disassemble the internal parts or modify them in any way.

Water warning

- Do not expose the product to rain, use it near water or in damp or wet conditions, or place on it any containers (such as vases, bottles or glasses) containing liquids which might spill into any openings.
- Never charge when this product is wet. Doing so may cause electric shock, fire, or malfunction due to short circuiting.

Fire warning

- Do not place any burning items or open flames near the product, since they may cause a fire.

Handling

- Before installing, removing or charging this product, be sure to read and follow the description of the Owner's Manual for the device on which you are installing this product.
  Otherwise, fire, overheating, explosion or damage to the product or your device may result.
- Do not dispose of batteries in fire.
- Batteries shall not be exposed to excessive heat such as sunshine, fire or the like.
- If batteries do leak, avoid contact with the leaked fluid. If this product fluid should come in contact with your eyes, mouth, or skin, wash immediately with water and consult a doctor. Battery fluid is corrosive and may possibly cause loss of sight or chemical burns.
- Do not short-circuit the batteries. Failure to do so might result in a fire, burns, or inflammation due to fluid leaks.

- Do not put in a pocket or bag, carry, or store batteries together with pieces of metal. The battery could short, burst, or leak, causing a fire or injury.
- Do not keep this product in a place subject to extremely low air pressure.
  Otherwise, it may explode, resulting in fire or injury.
- Do not subject the batteries to mechanical shock or drop. Failure to comply may result in fire, electric shock, malfunction.

Location and connection

- Keep this product out of reach of children. This product is not suitable for use in locations where children are likely to be present.

⚠ *CAUTION*

Always follow the basic precautions listed below to avoid the possibility of physical injury to you or others. These precautions include, but are not limited to, the following:

Handling

- Never handle batteries with wet hands.
- Do not rest your weight on the product or place heavy objects on it.
- Always make sure all batteries are inserted in conformity. Failure to do so might result in overheating, fire, or battery fluid leakage.
- When storing or discarding batteries, insulate the terminal area by applying tape, or some other protection. If the terminal of the battery touches other batteries or metal objects, it may cause overheating, fire, or battery fluid leakage.
- Charge only with a specified charger. Charging with an unspecified charger may cause leakage, overheating, explosion, or malfunction.
- Charges within the specified charging temperature range. Charging at a temperature outside the range may cause leakage, overheating, explosion, or damage.

NOTICE

Handling and maintenance

- To avoid over-discharge when not in use, the battery is "locked" and will not function when first shipped from the factory. To unlock and enable the battery for first time use, you must install it in the intended product or a specified battery charger, and then connect the product or charger to an AC outlet using the dedicated power cord.
- This product is a lithium-ion battery. Charge this product before using it. Even if you plan not to use this product for a long period of time, recharge it every six months to maintain battery power. Otherwise, the product may become unable to retain a charge.
- If you plan not to use this product for a long period of time, remove the battery from the relevant device. Otherwise, the batteries may be drained, or battery liquid may leak, possibly resulting in damage to your device.
- Do not remove the batteries from its original packaging until required for use.
- Keep the batteries clean and dry.
- Wipe the battery terminals with a clean dry cloth if they become dirty.
- Do not leave the batteries on prolonged charge when not in use.
- If you plan not to use this product for a long period of time, remove the battery from the relevant device. Otherwise, the battery may be drained, or battery liquid may leak, possibly resulting in damage to your device.
- Do not install this product in a place subject to drastic changes in ambient temperature. Otherwise, condensation may form inside and on the surface of your device, resulting in damage to the device.
- If there is a reason to believe that condensation might have occurred on or in the device, leave it for a while, and then turn on the power to the device. Turning the power on while condensation is present may cause damage to the device.
- Do not use sodium hypochlorite solution, ethanol, benzine, thinner, detergent or a chemical rag to clean the surface of the product. Otherwise, the surface may become discolored or deteriorate.

Bundled items

- RECHARGEABLE Li-ION BATTERY PACK × 1

- Owner's Manual (this book)

General Specifications

Model	BTR-STP200
Battery type	Rechargeable lithium ion battery pack
Weight	530 g
Size	186 × 96 × 39 mm
Capacity	79.92 Wh (2,700 mAh, 29.6 V)
Charging time	Approx. 4 hours (with STAGEPAS200)
Operating temperature	0 – 40°C
Charging temperature	5 – 40°C

- If this product is stored for twelve months under temperatures between –20°C and 25°C, the battery charge capacity will be reduced by about 10%.
- Battery charging time is an estimate for fully charging a completely exhausted battery. The time varies depending on the remaining battery level and ambient temperature.
- The contents of this manual apply to the latest specifications as of the publishing date. To obtain the latest manual, access the Yamaha website then download the manual file.

Information for users on collection and disposal of used batteries:

These symbols on the batteries and/or accompanying documents mean that used batteries should not be mixed with general household waste.
For proper treatment, recovery and recycling of used batteries, please take them to applicable collection points, in accordance with your national legislation.

By disposing of the batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of used batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

For business users in the European Union:
If you wish to discard battery, please contact your dealer or supplier for further information.

Information on Disposal in other Countries outside the European Union:
This symbol is only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom symbol example):
This symbol complies with the requirement set by the EU Battery Directive.
