Thank you for purchasing the Yamaha YCM01 condenser microphone. This product is suitable for live streaming and home recording. To take best advantage of this product, please read this owner's manual thoroughly, and keep it in a secure place for future reference.

SAFETY PRECAUTIONS

Be sure to follow the instructions

Please carefully read and observe the following precautions to avoid harm to people or damage to your personal property.

- Contact the following customer center for inspection or repair.
  - The store you purchased the product
  - Yamaha dealer
- Please note that Yamaha cannot accept any liability for any losses resulting from improper use or unauthorized modification of the product.

⚠ WARNING

These precautions alert you to the possibility of death or serious injury to yourself or others.

Do not disassemble

- Do not modify or disassemble this product.
  Otherwise, fire, electrical shock, injury or damage to the product may be caused.

Water warning

- Do not use this product in damp or wet conditions, such as a bathroom or rainy outdoor location. If liquid spills into the product, fire, electrical shock or damage to the product may be caused.

Hearing loss

- Before connecting or disconnecting the microphone, lower the speaker and headphone volumes to the minimum level and turn the phantom power off.
  Otherwise, hearing impairment or a malfunction of the connected devices may result.

⚠ CAUTION

These precautions alert you to the possibility of physical injury to yourself or others.

Installation

- Do not place this product in an unstable position or a location subject to vibration.
  Otherwise, the product may fall or tip over, resulting in injuries or damage to the product.
- Before moving this product, be sure to remove all connected cables.
  Otherwise, the cables might be caught by a foot or hand, and the product may fall or tip over, resulting in injuries or damage to the product.

Handling

- Do not insert your hands or fingers in any gaps or openings on this product.
  Otherwise, injury may be caused.

Precautions for use

NOTICE

Follow the precautions below to avoid malfunction and damage to this product and to prevent the loss of data.

Installation

- Do not install this product in a place subject to:
  - Extremely high or low temperatures
  - Excessive dust

  Otherwise, malfunction or damage to the product may be caused.
- Do not install this product in a place where condensation can form due to rapid, drastic changes in ambient temperature. Using the product while condensation is present may cause damage to the product. If there is a reason to believe that condensation might have occurred on or in this product, leave it for several hours without turning on the power. You can start using the product when the condensation has completely dried.

Handling

- Do not drop this product or apply any strong impact to the product. Otherwise, damage to the product may be caused.
