LONG RANGE ARRAY SPEAKER 60W

HA-1060EN

The HA-1060EN is certified to the European Standard EN 54-24: 2008, Loudspeaker for voice alarm systems for fire detection and fire alarm systems In compliance with the British Standard BS 5839-8: 2008.

■DESCRIPTION

The HA-1060EN is composed of multiple horn speakers positioned in an array. It is a highly efficient speaker. Clear voice can be transmitted to a distant place without acoustic correction. The built-in high-pass filter cuts the bass that can damage the speaker. A double drip-proof structure, and a salt-resistant paint finish, it has excellent durability in an outdoor permanent environment.
