IR-201M

1CH INFRARED WIRELESS MIC

IR-201M is the hand-held microphone for IR-701T/ IR-701TA 1CH Infrared Wireless Receiver. It eliminates problems with interference or eavesdropping, allowing for simultaneous use in adjacent conference rooms or school classrooms.

Key features

- Lightweight hand-held microphone IR-201M keeps hands from tiring even during long hours of use.
- IR-710T/ IR-701TA receiver covers extensive area up to approx. 15m line of sight.
- The infrared wireless microphone system can be used as far as simply connecting to the amplifier without any further setting.

Specifications

Battery	AA alkaline dry cell battery DC 1.5V x2 or Ni-MH rechargeable battery DC 1.2V x2
Infrared Emitter	
Wavelength	870 nm (AM: Brightness modulation)
Modulation Method	FM modulation
Carrier Frequency	3.100 MHz
Transmission Distance	Approx. 15m (In an unobstructed space)
Modulation Sensitivity	±40kHz
Maximum Input Sound Pressure Level	126 dB SPL
Microphone Element	Unidirectional condenser microphone
Frequency Response	100 Hz - 16 kHz
